2018 Catalog

ROUND PEN PANELS

This unique panel is designed with the horse person in mind, although it's light-weight, yet rugged design works for cattle as well. Panels are made with 1¼" x 1¼" x 0.100 wall square tube outside frame with 1" x 1" x 0.100 wall square tube horizontal bars turned to form a diamond shape for a unique look and added strength. Panels are offered in 5 or 6 bar versions and come standard in dark green powder-coated finish for extra durability and appearance. Other colour options available upon request. Panels have square top corners to eliminate "V"s where panels join. Another feature is the "Quick Connect" system that allows for faster setup and more versatility on uneven ground.

"RP Series" 6-Bar Panel

#RP106 10' 6-Bar Panel (shown)

"RP Series" 5-Bar Panel

#RP105 10' 5-Bar Panel (shown)
