<b>SF2002SS</b>	22 Lpm

### Fastening Bracket

Standard clamp fits 1-1/4" to 1-1/2" pipe  
Powder coated steel.

**UBCOMBO**

### Frost Plug

The plastic plug is threaded into the water inlet that is not being used. Plastic is used so that in case of freezing temperatures the plug should pop out instead of cracking the cast iron bracket.

**25FP**

### Grip-well Clamp Options

Heavy duty stainless steel clamp will securely fasten your bowl to round or square posts. Clamp profile fits 1" to 2" pipe size.

**AU-GWSS**  
**AU-GWSS-375**

Clamp Only  
Clamp with SS hardware for 1-1/4" - 1-1/2" pipe size

### Nose Guard

Heavy duty plastic guard protects the valve from being held on constantly and overflowing the bowl. Forces the animal to have their nose in the bowl rather than just pressing the top of the valve. The profile of the guard allows the valve to be removed while leaving the guard installed. Can be added to new or existing bowls.

**AU-NG**

### Valve Repair Kit

Includes replacement urethane washer and stainless steel spring.

**SF2002RK** - for super flow valve  
**92RK** - for #92 valve

### Grip-well Clamp Options

Heavy duty powder coated steel clamp will securely fasten your bowl to round or square posts. Clamp profile fits 1" to 2" pipe size.

**AU-GW**  
**AU-GW-375**

Clamp Only  
Clamp with hardware for 1-1/4" - 1-1/2" pipe size

### Splash Stop

These durable plastic rings are fastened to the bowl with 1/4" stainless steel hardware. Can be added to new or existing bowls to help prevent the water mess that occurs when animals lap the water out of the bowl with their tongue.

**AU-SPST**

### Water Bowl Connection Kit

This kit makes hooking up your AU82 bowls quick and easy. Just drill a 3/8" hole in the supply line and clamp the saddle on. The 3/4" MPT fits the AU82 bowls. Kit includes saddle, 30" of 600 PSI hose, 3/4" MPT brass fitting, 2 gear clamps, and 2 nylon ties.

# STAINLESS STEEL TIP TROUGHS

Keep your cattle  
well-hydrated with  
Hydrator's tip  
troughs built with  
robust 12 gauge  
304 Stainless Steel.

Hydrator's tip troughs feature fold-over safety edges and nylon bushings on all pivot shafts. When your herd needs fresh water, simply tip the trough with the spring-loaded locking tip handle for quick emptying. The smooth roll formed trough prevents dirt from accumulating when tipping. The fold over safety edges prevent livestock injury. For additional versatility, choose from Hydrator's heavy-duty galvanized floor mount or wall mount brackets.

## NELSON® 700 Series Automatic Waterer

NELSON® AUTOMATIC WATERERS employ an exclusive operating system which provides your livestock with every drink. A stainless steel drinking bowl is balanced on one end of a beam with a lead weight on the other end. As an animal drinks, the system becomes out of balance, causing the beam to tilt and open the water valve. Fresh water refills the bowl, returning the bowl to its original position and automatically closing the valve. There are no floats or paddles to cause problems.

Cleaning the Nelson 700 Series Waterer is fast and easy. By simply removing the cover and locking the beam lock lever, the stainless steel drinking bowl can be removed for cleaning or sterilizing. It takes less than 30 seconds and you don't even get your hands wet.

For cold weather installation, Nelson's electric heater heats both the bowl and valve for freeze proof protection. Several unique features keep your energy costs low: 1) only a small amount of water is being heated 2) a pre-set thermostat switches the heater on only when necessary and 3) high density polyethylene insulation lines the entire housing, keeping heat in during the winter...keeping heat out in the summer. The electric heater and thermostat are so reliable they carry a full three year warranty.

## KERBL

### Pasture Pump

Double stroke function  
Pumps water from a depth of up to 20'  
1" MPT connection

200-800

### Strainer With Check Valve

Fits 1" hose

200-805

### Plasson Pasture Watering Couplers

Plasson Quick-Coupler Valves allow you to hook up a full-flow valve as quickly and easily as opening a door. When the 3/4" male riser (190-041) section is pushed into the female valve (190-040), it easily snaps into place and opens the valve fully. A simple squeeze on the snap arm of the riser releases the connection and automatically shuts the valve off. The highly visible, hinged, yellow cover keeps dirt out when not in use. 3/4" MPT connection

## ANKA PIPE FITTINGS

Anka Pipe Fittings with this unique patented design will connect to a large range of pipes and hoses. Designed to fit low density polythene pipe, they will also fit a range of flexible hoses, suction and pressure. Manufactured from high grade Glass Fibre Reinforced Nylon makes these fittings strong and lightweight.

### Features

- Non-Corrosive; using high quality materials approved for use with drinkable water
- Unique Blue Nut; which is very user friendly
- In most situations fittings can be put on cold

### Applications

- Hose, Pumping, Irrigation, Marine, Hydroponics, Plumbing, Agriculture, Industry, Landscaping

### Material: Glass Fibre Reinforced Nylon

Maximum Working Pressure: 230 psi (1600 kpa) @ 20°C

## FLY CONTROL

Sticky Roll™ effectively catches, controls and eliminates flies because it's based on their natural habits. Flies follow the warm updrafts in rooms and barns, seeking a resting place near the ceiling. They become entrapped in Sticky Roll, then become an irresistible attractant to other flies. No baits, toxins, or pheromones are necessary. Soon the tape is black with dead flies. When a length of tape is full, crank it up, flies and all onto the disposable take-up reel. Fresh tape is rolled out at the same time, ready to grab more flies.

Sticky Roll™ reel-to-reel Fly Tape System is available in several sizes, ranging from the mini kit to the Deluxe Kit with 1000 feet of tape, and features attractive, informative packaging.

## FLY CONTROL

### Disposable Fly Trap

This trap is baited for fly species which are most common in agricultural areas -- including house flies, false stable flies, blow flies, blue and green bottle flies, flesh flies, face flies and many others.

Unique features and benefits:

- Designed to handle areas with heavy fly concentrations
- Powder attractant is contained within the trap itself
- Attractant dissolves and activates quickly when water is added to the bag
- Trap's design eliminates touching the bait or the flies
- Completely disposable
- Holds up to 40,000 flies (yes, we counted them all!)
- Case quantities 12

#### Bekina Warranty Policy

BEKINA warrants the PU boots to be free of factory defects as well as any "short-life" cracking, leaking, or delamination occurring within 3 months of initial use, resulting from normal usage. Deterioration of boots due to exposure to chemicals, sharp objects, and/or harsh abrasives is not a defect in the product and is not covered by this warranty. Preventative maintenance must include thorough rinsing after contact with chemicals or oxidants. This will prolong the life of the boot. Failure to rinse thoroughly will cause a reaction called case hardening, shortening the life of the boot due to cracking, separation, and/or material breakdown.

## PIPE SEALANT, EPOXIES, THREAD LOCK & ADHESIVES

### Standard Anti-Seize Compound AS 040 P

WEICON Anti-Seize Standard Grade consists of selected, finely ground, metallic solid lubricants and a high-quality synthetic oil mixture. 120g

12-26000012

### Hi-Tech Anti-Seize Compound ASW 040 P

WEICON Anti-Seize High-Tech is metal-free (under 0.1%) and can be used with any material. In case of certain metal combinations, it offers optimum protection against electrolytic reactions (cold welding). 120g

CFIA approved.

12-26100012

### 2 Part Fast Metal Minute Adhesive

Steel-filled adhesive with paste consistency can be used to bridge large tolerance gaps. Quick-curing, machinable product easily applied with double syringe for accurate delivery. 24mL

12-10551024

### 2 Part Epoxy Minute Adhesive

Transparent, quick-curing adhesive retains elasticity after curing. Easily applied with double syringe for accurate delivery. 24mL

12-10550024

### Pipe & Surface Seal AN 305-67

This low strength, high viscosity pipe and thread sealer is easy to use in its convenient pen dispenser. White. 50mL

12-30567150

### Flex+Bond Adhesive

Bonds and seals nearly all materials, permanently elastic, temperature resistant from -40°C to +40°C. Can be sanded and painted after curing. Weather resistant, UV-stable. 85mL

12-13352085 Black  
12-13351085 Grey  
12-13353085 Clear  
12-13350085 White

### Universal Pipe & Thread Seal AN 305-77

Universal sealing type for pipes and fittings. High viscosity, medium strength. Disassembly with normal tools. Yellow. 50mL

CFIA approved.

12-30577150

### Thread Lock Medium Strength AN 302-42

Medium strength, disassembly with normal tools. Blue. Convenient pen-system for easy application.

12-30242020 20 mL  
12-30242150 50 mL  
12-30242901 1 L

### Thread Lock High Strength AN 302-62

High strength, hard to disassemble. Red. Convenient pen-system for easy application.

CFIA approved.

12-30262020 20 mL  
12-30262150 50 mL  
12-30262200 200 mL  
12-30262901 1 L

### Repair Sticks

Easy to use, bond metal, fibre-reinforced materials, wood, glass, ceramic, stone, and most hard plastics. Temperature resistant from -50°C to +120°C. Cures with almost no shrinkage and can be machined and painted. 57g.

12-10533057 Steel  
CFIA Approved  
12-10534057 Aluminum

### Contact Adhesive VA 8312

Very fast curing adhesive for bonding numerous rubber and plastic materials. 12g

12-12200012

### Cleaner / Degreaser Spray S

Degreases and cleans all metals, glass, ceramics, and many plastics to prepare for priming and painting. Evaporates quickly and leaves no residue. 500mL

CFIA approved.

12-11202500

### W44 Turbo Spray

Industrial quality spray loosens rust, displaces moisture, eliminates squeaky noises and cleans metal surfaces. Leaves an extremely thin film of corrosion protection that does not smear, stick, or attract dust. 400mL

12-11251400

### Zinc Galvanizing Spray - Bright Grade

Quick drying spray can be used as a high quality rust protection primer, for touching up welded or drilled sections, and wherever metal must be protected from corrosion. Color is similar to hot dip galvanizing. 400mL

12-11001400

### Stainless Steel Spray

For the repair/touch-up of stainless steel parts, and to give a corrosion and weather resistant coating to metal that is exposed to the elements. Dries in 10 minutes. 400mL

12-11100400

## PIPE SEALANT, EPOXIES, THREAD LOCK & ADHESIVES

### PVC Heavy Duty Clear Cement

For use on all schedules and classes PVC pipe and fitting up to 12" diameter with interference fit, up to 18" for non-pressure. Thick formula fills gaps in large diameter pipe and loose fitting joints. Recommended for potable water, pressure pipe, conduit and DWV. Recommended application temperature 40°F to 110°F / 4°C to 43°C.

**705-500** 118 ml  
**705-400** 236 ml  
**705-600** 473 ml  
**705-200** 946 ml

### Clear Primer

Clear aggressive primer for use on PVC and CPVC pipe and fittings. Removes surface dirt, grease and grime as well as softens the pipe surface to allow a fast, secure solvent weld. NSF listed.

**12-2000-H** Wall Mount Can Holder

### White General Purpose Thread Seal Tape With PTFE

Provides a clean, positive seal on threaded connections. A high-density product that resists tearing and stretching for easy, efficient application. 3 mils thick, 0.7 grams/cubic centimeter density.

**TEFLON** 1/2" x 260"

### Pink Water Line Thread Seal Tape With PTFE

Provides fast positive seal for water lines, sewage lines and sprinkler systems. Effective on metal or plastic threads. Pink tape is 3 mils thick with density of 1.35-1.50 grams/cubic centimeter.

**TEFLON-PINK** 1/2" x 260"

### Yellow Gas Line Thread Seal Tape With PTFE

Manufactured especially for natural gas, propane, butane, water, oil and chemical lines. Heavier than white tape with density of 1.35 - 1.50 grams/cubic centimeters, 4 mils thick.

**TEFLON-GAS** 1/2" x 260"

### Grey Professional Megatape with PTFE

Applies better – Pro-grade PTFE, allows for fewer wraps and resists tearing/ripping. Looks better - Improved aesthetics versus white, yellow, or pink tapes. Performs better - cUL-Listed to take on strenuous applications. Chemically inert. Seals threads on virtually any piping system, including: Stainless steel pipe, Cast iron, PVC, CPVC and ABS pipe, Brass and chrome fittings, and Gas connections. High density - 3.5 mils thick.

**TEFLON-SS** 1/2" x 260"

### MEGALOC® Thread Sealant with Kevlar

Odorless formula is non-separating, non-flammable and non-hazardous. Seals plastic and metal pipes and fittings. Performs over a range from -50 degrees Fahrenheit to 400 degrees Fahrenheit. Safe for drinking water lines. In-lid applicator. Sets soft with no cure time required. Wipes clean from hands and tools and washes out of clothes. Resists hardening and cracks. Hydraulic resistant to 12,000 PSI - gas pressure to 2600 PSI. CSA rated for natural gas.

**12-9004** 29 ml squeeze tube  
**12-9005** 118 ml  
**12-9006** 237 ml

### Great White® Pipe Joint Compound with PTFE

Lubricates and seals all threaded joints. White, non-hardening, non-separating, non-toxic paste. Withstands up to 3,000 PSI on gases from -50° to +400°F, and 10,000 PSI on liquids from -50° to +500°F. For use with water, steam, caustics or dilute acid lines of PVC, CPVC, ABS, cycloc, polypropylene, iron, steel or copper.

**12-9007A** 29 ml squeeze tube  
**12-9007** 118 ml

### Grey Pipe Joint Compound

Soft-setting compound does not harden. Ideal for sealing metal threaded connections. Use on water, air and steam pipe lines. Not for use on plastic threads. Easy cleanup. Will not separate.

**12-9008A** 29 ml squeeze tube  
**12-9008** 237 ml

# ANKA PIPE FITTINGS

Anka Pipe Fittings with this unique patented design will connect to a large range of pipes and hoses. Designed to fit low density polythene pipe, they will also fit a range of flexible hoses, suction and pressure. Manufactured from high grade Glass Fibre Reinforced Nylon makes these fittings strong and lightweight.

## Features

- Non-Corrosive; using high quality materials approved for use with drinkable water
- Unique Blue Nut; which is very user friendly
- In most situations fittings can be put on cold

## Applications

- Hose, Pumping, Irrigation, Marine, Hydroponics, Plumbing, Agriculture, Industry, Landscaping

## Material: Glass Fibre Reinforced Nylon

Maximum Working Pressure: 230 psi (1600 kpa) @ 20°C

# Hose Nozzles

Anka Hose Nozzles are strong and robust with a quick action on/off movement to a fully adjustable spray pattern. This gives very high flow rates to insure a fast wash-down time.

Using high quality industrial plastics, the Anka hose nozzles give greater impact resistance.

### Features

- Uniquely designed outer ring; which protects the nozzle from high impact and excessive wear.
- Quick Action on/off; for complete control
- Fully adjustable; wide spray pattern to a full-bore flow.
- Serviceable; nozzles can be taken apart for servicing. Service kits available.

### Applications

- Dairy wash-down, Truck wash, Yard wash-down, Packing Plants, Marine

## FILTER CARTRIDGES

Bowl Length Pleated Polyester Microns String Wound Poly Spun Poly

**WFC-10-PP-5**

**WFC-10-SWP-5**

**WFC-10-SP-5**

### Pleated Polyester

The polyester pleated filters are suited for a variety of uses and can be used in residential, commercial and industrial applications. The non-woven polyester filter media is pleated around a polypropylene core for added strength and stability. The pleated surface area provides greater sediment and dirt holding capacity while maintaining flow rate and reducing initial pressure drop. Cartridges can be cleaned and re-used in most applications and micron ratings.

#### Standard

### Spun Polypropylene Gradient Depth Cartridges

The spun poly cartridge is manufactured with melt blown technology into a multi-layer structure to provide superior filter efficiency, pressure drop and cartridge life.

## SPIN DOWN FILTERS

These filters provide an effective means for removing large volumes of sediment. They are ideal for whole house filtration, agricultural and commercial / industrial applications. Overall filtration costs are greatly reduced when used as a pre-filter in duplex filtration systems by preventing post-filtration cartridges from plugging prematurely before their absorption ability is exhausted, maximizing the capacity / utilization of the carbon. This dramatically increases the life span of taste and odor, granular carbon and other fine micron cartridges.

# STRIKING PERFORMANCE

CB Supplies is proud to announce the launch of Vipert Potable & Radiant PERT Tubing, designed to perform as well or better than any other flexible plastic tubing in the market today.

## IMPROVED FLEXIBILITY FOR EASIER INSTALLATION

With relaxed memory you'll experience less spring back than PEX for easier installation

## STRENGTH & DURABILITY

Excellent hydrostatic strength at high temperatures and very high burst pressures

## BUILT FOR EXTREME TEMPERATURES

Maintains excellent flexibility in extreme cold and hot environments

## A SMALLER ENVIRONMENTAL FOOTPRINT

VIPERT is recyclable and requires less energy to be produced than PEX

## 25-YEAR WARRANTY

CB Supplies stands behind VIPERT with a 25-year warranty

## EASY LINE IDENTIFICATION BY COLOR

Eliminate hot and cold water cross connections

## VIPERT BY CB SUPPLIES – THE EVOLUTION OF PEX

If you like PEX you will love VIPERT, the new line of Radiant and Potable PE-RT tube manufactured in Canada by CB Supplies. Stronger, greener, fusible and more flexible, PE-RT strikingly outperforms PEX.

Why? PE-RT is a more pure material, manufactured from polyethylene – raised temperature, while PEX is polyethylene that is cross-linked. To make PEX, additives are blended in with the resin and a curing process is required to cross-link it. This makes the pipe stiffer.

PE-RT does not need to be cross-linked to meet North American standard requirements, eliminating the need for additives, resulting in a more pure product. It is this key difference that makes PE-RT stronger and more flexible than PEX, while also being recyclable and fusible.

### STRONGER

PE-RT has higher hydrostatic burst pressures than PEX.

### 100% RECYCLABLE

Unlike PEX, PE-RT is 100% recyclable so scraps do not need to be thrown away on job sites. It also requires less energy to produce, since it does not need to be cross-linked.

### MORE FLEXIBLE WITH LESS SPRING BACK

This is especially noticeable on larger diameter tubing and when installed in below-freezing temperatures.

### FUSIBLE

Not only is PE-RT compatible with most popular PEX fitting systems, including crimp fittings, push fittings and F2080 cold expansion, but it is also fusible while PEX is not.

## PRESSURE WASHER ACCESSORIES

### Gun and Wand Assembly

4000 psi 10 GPM gun and wand assembly with 36" insulated, plated steel lance with 3/8" quick coupling inlet and 1/4" female quick coupling tip  
**PW-GUN-WAND**

### Replacement Gun

5000 psi, 10 GPM gun with 3/8" female NPT inlet and 1/4" female NPT outlet  
**PW-GUN**

### Insulated Steel Wand

**PW-WAND-36**  
36" insulated, plated steel wand - straight  
**PW-WAND-36B**  
36" insulated, plated steel wand - bent  
**PW-WAND-48**  
48" insulated, plated steel wand

These gun and gun/wand assemblies are rated to 99°C (210°F)

### Black Storm

4000 psi smooth black cover. 3/8" NPT x 3/8" swivel NPT. Rated up to 120°C (248°F)  
**PW-HB25** 25'  
**PW-HB50** 50'  
**PW-HB100** 100'

### Grey Storm

Grey abrasion resistant cover. Two wire braids for increased working pressure and longer lifespan. 6000 psi. Rated up to 155°C (310°F)  
**PW-HG50** 50'  
**PW-HG100** 100'

### Sun Storm

Yellow, extremely durable cover. Resists animal fats and lasts 4 times longer in abrasion tests compared to standard hoses. Rated up to 120°C (248°F)  
**PW-HY50** 50'  
**PW-HY100** 100'

### Pressure Washer Spray Tips

Spray tips are designated by the spray angle (a narrower angle produces more force over a small area, which is great for tough jobs but may gouge or strip softer surfaces), and by orifice size. The orifice size designates the gallons per minute flow at 4000 PSI. Spray tips are available color coded by spray angle with quick disconnect ends.

**PW-N-0** Red 0° for blasting. 4.0  
**PW-N-15** Yellow 15° for cleaning hard surfaces. 4.0  
**PW-N-25** Green 25° for flushing and wet sweeping. 4.0  
**PW-N-40** White 40° for washing soft surfaces. 4.0  
**PW-N-SOAP** Black universal soap tip

### Rotary Nozzle

With 1/4" quick disconnect and inline filter. Uses a sharp, pencil jet rotating at high speed to greatly increase cleaning power and reduce time.  
**PW-N-ROTARY**

### Sewer Cleaning Nozzle

1 forward and 3 backward jets for sewer cleaning  
**PW-N-MOLE**

## QUICK COUPLERS

### Female Quick Couplers

**PW-FQCF-002** 1/4" Brass  
**PW-FQCF-003** 3/8" Brass  
**PW-FQCFSS-002** 1/4" SS

## SPEEDRITE ENERGIZERS

### Speedrite – No-nonsense electric fence solutions for the serious farmer.

Since 1938 Speedrite has produced powerful and robust electric fencing products. Products proven to perform in the harshest conditions and toughest environments. Our No-nonsense attitude to developing hardworking electric fencing systems has carved a worldwide reputation for performance and durability – a reputation built on 65 years of honesty, quality, and innovation.

Speedrite low-impedance energizers combine massive power and technology to produce hard-working performance. Proven to work in even the toughest of environments, Speedrite energizers power through areas of thick over-growth. State of the art componentry and programming technology means Speedrite energizers deliver a high quality pulse onto the fence – providing maximum energy as it is needed. All Speedrite energizers come with an industry leading warranty.

#### 36000R

Output: 36.0 Joules, 52 Joules stored  
Power Consumption: 52W

170-400

**Designed for large properties with extensive electric fencing systems and for those that want maximum power to cater for extreme livestock pressure. The 36000R maintains high voltage and easily powers through seasonal growth in the toughest conditions.**

- Single Input Source: 110V
- Cyclic Wave™ technology
- Bi-polar technology
- **Remote included**
- Indicator lights
- Large terminals
- Low Impedance
- Rugged design
- Half voltage terminal
- 2 year warranty

#### 18000i

Output: 18.0 Joules, 24 Joules stored  
Power Consumption: 33W

170-420

**Uncompromising power with new remote control and fault finding technology ensures safe and reliable control of your precious livestock. Designed for large farms with multi wire fences the Speedrite 18000i offers superior livestock control and is now available with a low voltage terminal to safely handle all types of livestock.**

- Dual Input Source: 110V or 12V
- 18000i remote ready and LCD display
- Cyclic Wave™ technology
- Low Energy Terminal
- LCD voltage display
- Indicator lights
- Battery Saver
- Day/Night Sensor
- Large terminals
- Earth Monitoring
- Versatile mounting options
- 2 year warranty

#### 12000i Unigizer

Output: 12.0 Joules, 16 Joules stored  
Power Consumption: 20W

170-425

**With 12J of output energy the 12000i is capable of powering a small to medium sized farm or ranch without compromising the flexible benefits of mains, battery or solar installation. The versatility of the unit makes it ideal to also power medium to large blocks or runoffs.**

- Dual Input Source: 110V or 12V
- 12000i remote ready and LCD display
- Cyclic Wave™ technology
- Bi-polar Technology
- Solar Compatible
- LCD voltage display
- Indicator lights
- Battery Saver
- Day/Night Sensor
- Large Terminals
- Low Impedance
- Low Interference
- Ground Monitoring
- Versatile mounting options
- Adjustable power and pulse speeds
- 2 year warranty

### 6000i Unigizer

Includes remote and LCD display  
Output: 6.0J  
Power Consumption: 10W  
**170-435**

### 6000 Unigizer

Output: 6.0J  
Power Consumption: 10W  
**170-436**

**The dual input Speedrite low impedance electric fence is suitable for all livestock.**

- Dual Input Source: 110V line or 12V
- Half voltage terminal
- Indicator lights
- Adjustable power and pulse speeds
- Cyclic wave® technology
- Day/Night Sensor
- 2 year warranty

### 1000 Unigizer

Output: 1.0J  
Consumption on 12V battery:  
95 mA (fast pulse)  
60 mA (slow pulse)  
**170-450**

### 2000 Unigizer

Output: 2.0J  
Consumption on 12V battery:  
180 mA (fast pulse)  
110 mA (slow pulse)  
**170-460**

### 3000 Unigizer

Output: 3.0J  
Consumption on 12V battery:  
290 mA (fast pulse)  
175 mA (slow pulse)  
**170-470**

**The dual input Speedrite low impedance electric fence is suitable for all livestock.**

- Dual Input Source: 110V line or 12V
- Includes power cord, battery lead and fence lead set
- Key parts are repairable/replacable
- Pulse light indicated charger operation
- Day/Night Sensor
- Easily mounts on wall, fence post or fence wire
- 2 year warranty

## SPEEDRITE FEATURES & OPTIONS

**Cyclic Wave™ technology.** Provides a clean, powerful pulse that maximizes the energy that travels down the fence line, resulting in continuous power right to the end of your fence for optimal livestock control

**Bi-polar technology.** Enables the user to power a fence system to perform exceptionally well in dry, low conductive soil

**Remote capable.** Using a Speedrite fence remote (with remote capable Speedrite energizers) enables you to switch the energizer on or off from anywhere along the fence line. This makes it easy to manage repairs and maintenance

**Indicator lights.** Easy to read light bar display provides an instant measure of the energizer output voltage for quick fence diagnostics. The LED display shows red when heavily loaded

**Large terminals.** Mounted on the front of the energizer casing for convenience, these large terminals are easily adjusted and accept up to two fence wires. The slotted terminals make inserting wires and getting a good connection easy

**Low Impedance.** Designed to deliver power to the end of the fence even under heavy load e.g. foliage, undergrowth

**Low interference.** Cyclic Wave™ technology delivers outstanding fence performance and helps to minimize electromagnetic interference in line with international EMC standards

**Rugged design.** Hi-tech components and advanced research and development have enabled us to make powerful energizers in a rugged, compact, polymer case

**Half voltage terminal.**

**Low Energy Terminal.** Limits energy to below 1.5 J for use around buildings and houses.

**LCD voltage display.** Displays output voltage, battery voltage and earth voltage. LCD is backlit for viewing in poor light conditions

**Battery saver.** Microprocessor technology automatically adjusts the output energy depending on the battery condition. This feature extends battery life and is particularly efficient when used in solar installations

**Day/Night sensor.** Automatically adjusts pulse speed to contain or exclude animals based on day or night conditions

**Earth monitoring.** Indicates earth system problems by monitoring the level of voltage around the earth system

**Versatile mounting options.** Can be mounted on a wall, post or fence wire. Choose indoor or outdoor installation, depending on your fence location and power supply

**Solar compatible.** Electrify your fence with solar power by connecting solar panels to any Speedrite Unigizer. The solar panels charge the battery connected to the Unigizer, for reliable livestock control.

## SPEEDRITE BATTERY ENERGIZERS

### S500

The Speedrite S500 integrated solar energizer is a new generation energizer with an integrated solar panel. The most powerful energizer in its class, the S500 delivers high performance even in low sunlight. Fully portable the S500 is suitable for strip grazing and the containment of livestock in small to medium sized areas and offers rugged portability as well as delivering exceptional power output and performance.

- Output: 0.5J
- Single Input Source: 12V
- Indicator lights
- LCD Voltage Display
- Low Impedance
- Versatile mounting options
- Up to 21 day operation without sun
- Max battery life - 3yrs
- Tough weather & UV resistant case
- Includes rechargeable internal sealed 12V 7Ah battery
- Simple operation with on/off switch
- Panel secured by aluminum frame
- solar panel requires fewer sunlight hours to keep battery at or near full charge
- Suitable for variable environments and all year round use
- 2 Year Warranty

**170-490**

### AN20 Speedrite Energizer

The AN20 is the smallest Speedrite energizer. Designed specifically for small fence lines the AN20 is used to protect trees and waterways from livestock damage or, to protect the garden from pests. The economical AN20 uses just 2x1.5V D cell batteries.

- Rugged enclosure houses the electrical components for reliability in the toughest conditions
- Proven circuit design developed specifically for strip grazing applications
- On/off switch
- Reinforced lid catch secures the energizer to the fence wire
- Operates on 2 D batteries (alkaline recommended) (batteries not included)
- Produces up to 6,300 volts
- Up to 35 days of battery life
- 2 Year Warranty

**170-486**

### AN90 Battery Energizer

Output: 0.12J  
On/Off Switch  
Fast and Slow Options  
Flashing LED  
2 Year Warranty

**170-487**

### 12 Volt Battery For PS15, S250, S500, Solar Fencer

### Speedrite Corral Kit

The Speedrite Corral Kit is ideal for trail riding, horse shows, etc. Quick & easy setup. Create a larger temporary corral with this portable electric fence kit.

- Includes 12 tread-in posts
- 660' of 1/2" polytape
- Wire reel
- Speedrite AN20 fence charger
- tread-in post battery stand that doubles as ground rod
- no-kick gate handle and carrying case

**170-100**

## PATRIOT ENERGIZERS

### Patriot Energizers

The dual input Patriot economy low impedance electric fence is suitable for all livestock.

- Dual Input Source: 110V line or 12V
- Includes battery lead and 110V power adapter
- Pulse light indicates charger operation
- "Battery back-up" option for use where power supply is unreliable
- 2 year full replacement warranty from date of purchase.

170-443	P5	Output: 0.5J
170-444	P10	Output: 1.0J

170-449A	PMX600	Output: 6.0J
170-449B	PMX1500	Output: 13.0J

### Patriot Pet and Garden Fencer

- Single Input Source: 110V
- 1 year full replacement warranty from date of purchase.

170-442	PE2	Output: 0.1J
170-442A	PE5	Output: 0.2J
170-442B	PE10	Output: 0.3J

### Pet and Garden Fencer Kit

Includes PE2, 10 posts, 100 ft of polywire, ground rod and fence connectors, step-by-step instructions and storage box. All you need to build a quick basic electric fence.

- Safely contains pets and deters small nuisance animals
- Great for yards, flower and vegetable gardens, and other similar areas.

## PARMAK ENERGIZERS

### Range Master

The most technically advanced Parmak fencer. Suitable for the control of all types of animals.

- Digital meter shows voltage on fence - accurate within 100 volts
- Ultra-high visibility multi-color LED lights show condition of fence
- Audible and visible "Shut Down Alarm" sounds when fencer is not functioning
- Rugged high impact ABS housing
- Color coded fence and ground terminals

#### Maximum Power Factor 160 km / 100 miles

- Max Output Energy: 6.6 Joule
- UL Listed
- 2 Year Warranty
- Power Source: 110 V
- Low Impedance
- For Indoor Installation

170-500

### Super Energizer 5

Outstanding Parmak model with proven performance.

- Low impedance designed specifically for large pastures
- For single or multi-wire high-tensile fence
- Advanced solid state circuitry
- Parmak's exclusive built-in performance meter
- Ideal for controlled grazing of livestock and predator control
- Double fuse protection with built-in lightning arrester

#### Maximum Power Factor 80 km / 50 miles

- Max Output Energy: 6.3 J
- UL Listed
- 1 Year Warranty
- Power Source: 110 V
- Low Impedance
- For Indoor Installation

170-510

### Mark 8

The all new Mark 8, low impedance fencer gives you the stock holding power that you have always wanted.

- For single or multi-wire high-tensile fence
- Advanced solid state circuitry
- Parmak's exclusive built-in performance meter
- Ideal for livestock or predator control
- Double fuse protection with built-in lightning arrester

#### Maximum Power Factor 48 km / 30 miles

- Max Output Energy: 4.9 J
- UL Listed
- 1 Year Warranty
- Power Source: 110 V
- Low Impedance
- For Indoor Installation

170-520

### Field Master

Designed for small to medium pastures. Suitable for the control of cattle and horses in small numbers.

- Advanced solid state circuitry
- Shocks through wet weeds and brush
- Built-in operational light
- Double fuse protection with built-in lightning arrester

#### Maximum Power Factor 24 km / 15 miles

- Max Output Energy: 3 J
- UL Listed
- 1 Year Warranty
- Power Source: 110 V
- Low Impedance
- For Indoor Installation

170-530

## PARMAK ENERGIZERS

### Horse Surround

Suitable for horses, pets & other smaller animals. Ideal for controlling and training horses.

- Advanced solid state circuitry
- Shocks through wet weeds & brush
- Built-in dual flashing operational light
- 100% American made

#### Maximum Power Factor 24 km / 15 miles

- Max Output Energy: 2 J
- UL Listed
- 1 Year Warranty
- Power Source: 110 V
- Low Impedance
- For Indoor Installation

170-540

### Deluxe Field - Battery Fencer

New, compact 6 volt fencer designed for livestock control in small to medium pastures.

- New, compact, lightweight design
- 100% solid-state with increased shock output
- Compact design, weatherproof, portable - outdoor model
- Built-in operational light
- Use a Ray-o-vac #641 or equivalent 6-volt battery
- Shocks through wet weeds and brush

#### Maximum Power Factor 40 km / 25 miles

- Max Output Energy: 1.85 Joule
- UL Listed
- 1 Year Warranty
- Power Source: 6 V
- Low Impedance
- For Outdoor Installation

170-570

## PARMAK BATTERY & SOLAR ENERGIZERS

### Magnum 12

A heavy duty solution for medium to large farms and remote areas where electricity is not available.

- 12 volt advanced solid state circuitry
- Performance meter that shows condition of the fence
- Low impedance for maximum power and longer life
- Compact design
- Weatherproof, portable - outdoor model
- Use with 12 volt storage battery; complete with battery clamps
- Ideal for livestock or predator control
- Provides up to 3 months of continuous operation between battery charges

#### Maximum Power Factor 48 km / 30 miles

- Max Output Energy: 3.1 J
- UL Listed
- 1 Year Warranty
- Power Source: 12 V
- Low Impedance

170-550

### Surround Em

Safe, effective, shock designed for animals that are sensitive to electric shock like horses, dogs and other short haired animals. Control & train your horses, dogs, or other animals. Approved by leading equestrians.

- Advanced solid state circuitry
- Shocks through wet weeds & brush
- Built-in flashing operational light
- Weatherproof for outdoor installation

#### Maximum Power Factor Small Pastures

- Max Output Energy: 1 J
- UL Listed
- Power Source: 12 V
- Low Impedance

### Deluxe Field Solar Pack

America's first solar-powered electric fence is now low impedance and features an exclusive built-in performance meter.

- Weatherproof, outdoor model
- Sealed, rechargeable 6 volt battery
- Will operate for 21 days in total darkness
- New, more powerful solar panel

#### Maximum Power Factor 40 km / 25 miles

- Max Output Energy: 1.8 Joule
- UL Listed
- 1 Year Warranty
- Power Source: 6 V
- Low Impedance
- For Outdoor Installation

## LIGHTNING PROTECTION

**We recommend Lightning Protection for energizers, regardless of what make or model, to reduce your energizer repair bills. A properly installed lightning protection system will help to eliminate costly energizer repairs. \*Note: Make sure your ground on the lightning arrestor has more capacity than ground on energizer.**

### LACME Lightning Arrestor

Diverts lightning strike through 2 poles faced towards each other far enough apart not to interfere with energizer power voltage. 6 per case.

180-025

### Dare Lightning Arrestor Kit

Heavy duty, farm tested and proven, electric fence lightning arrestor. Diverts damaging lightning strikes. 6 per case.

180-030

### Koltec Lightning Arrestor

4 per case.

180-020

### Lightning Arrestor Kit

Heavy duty, farm tested and proven, electric fence lightning arrestor. Complete with wire clamp, ground rod clamp and mounting screws. When installing the arrestor kit you must use separate ground rods from fence energizer. Make sure your arrestor ground is at least 50 feet from the closest ground on energizer.

180-115

### Dare Voltage Spike Protector

A must for every 110-V fence controller. Reduces effects from electrical surge through power line, a common cause of controller damage. Use on grounded circuits only.

180-112

### Dare One AMP Fuse

Fits most types of electric fence controllers. Dimensions 1/4" x 1-1/4" AGC - 1 amp. Pack of 5 blister card.

180-060

### Speedrite™ Digital Voltmeter

Powered by a 9 volt battery with a life of 12-18 months. Tough, durable and reliable, the compact pocket sized digital voltmeter has solid state circuitry, automatic on/off and reads from 100 to 9,900 volts. Simply insert ground stake into the ground, then hook over fence. 5 per case.

**180-093**

### Speedrite™ Fault Finder/Remote Control

A combined voltage and current meter that allows you to rapidly find faults/shorts on your electric fence. Large backlight. Bold current indicator arrows. Simultaneous voltage and current reading. Audible current indicator. Robust, impact and water resistant case. Integrated belt carry clip. No earth lead needed. 9 volt battery. **For models 36000R, 18000i, 12000i and 6000i.** Turn your electric fence on/off from anywhere in the field.

**180-091**

**BARN2FIELD**

### SMB Digital Voltmeter

Digital Voltmeter for electric fence. Reads up to 9,999 volts. Extremely sensitive and accurate. Powered by a 9 volt battery. (not included) Has an easy to use ground probe attached and automatic on/off. Leather pouch included. 10 per case

**180-094**

**BARN2FIELD**

### Six Lite Fence Tester

Reads up to 9,999 volts. Extremely sensitive and accurate. Has an easy to use ground probe attached and automatic on/off. 10 per case.

**180-109**

**BARN2FIELD**

### SMB Fault Finder

Large easy to read display Fault finder helps detect electrify fence shorting problems. Requires 9 volt. Battery (not included) Includes leather carry case.

**180-089**

### LACME Joule Digital Meter Pro

A high technology product, the 12 KV joule-meter developed by the LACME engineering department is the only pocket controller in the world capable of offering both a direct reading of the energy (pains) in joules that the animal experiences and a direct reading of the starting voltage! Indication of the charge voltage by barograph

**180-098**

### LACME Digital Volt Meter Fault Finder

Digital volt meter. Easy to use. Auto on/off.

**180-090**

### LACME Six Lite Fence Tester

The 10 KV controller is a voltage tester (voltmeter) with 6 lamps (instead of the usual 5) and a user range between 1,000 and 10,000 volts. Its design is ergonomic with a very large protection guard and an extra flexible multistrand earth wire.

**180-099**

### Fence Line Tester

4 lights. 2500 V - 8000 V  
No ground probe needed.

**180-096**

### Dare Five-O-Lite Fence Tester

Voltages are plainly marked on the case - 625, 950, 2,000, 3,300 and 5000 volts. Take a reading on your fencer, then check fence. If reading is the same, fence is okay.

**180-110**

### Dare Single Lite Fence Tester

Tells whether fence is working and helps locate faults such as 'opens', 'shorts', and partial grounds. Lamp protected by resistor. 5 per case.

**180-100**

### Speedrite™ FenceAlert

The FenceAlert provides an instant warning of low or intermittent voltage and hence, animals escaping. Low voltage warning light. Starts working when your fence stops. No ground lead required. Up to 5 years battery life. Can be seen for up to a mile.

## ELECTRIC FENCING POLY WIRE

### Baygard® by Parmak Heavy Duty Electric Fence Wire

Baygard® heavy duty electric fence wire for permanent or temporary pasture and rotational grazing. 3 aluminum conductors for maximum shocking power - Conducts electricity 75X greater than stainless steel wire. High contrast yellow and black colors. 3 reinforced PVC coated fiberglass cords give high strength plus low stretch and sag properties. Baygard conductor wires are 0.159" (.4mm) compared to many products constructed of 0.008" (.2mm) conductor wires. UV stabilized for excellent weathering. 110-140 wire is wound on a ReelEasy™ Spool for use with optional Reel Easy™ handle. 5 year UV warranty.

Performance equestrian braid, is the only patented self restoring braided rope able to provide continuous electrical conductivity in the event of an outer braid separation. Made to withstand the extreme weather of North America includes sleet, high winds, snow, and UV radiation. Performance equestrian braid is constructed completely of marine grade polyester and utilizes stainless steel conductors to ensure unequalled performance suitable for high and semi high tensile applications. A teal tracer provides additional visibility and safety.

### Line Post Tube Insulator

This fin tube is a revolution in tube insulators. Unlike a normal fin tube which you must put on before tensioning the wire, this new style is put on after the wire is tensioned. A quick twist of the wrist and it snaps onto the wire. A real time-saver. No more having to count posts and slide the insulators on before installing wire. 4" length

## WRAPAROUNDS

### Wraparounds

Tubular medium-density polyethylene provides total insulation, and a non-rusting aluminum insert prevents fence wire from cutting through the insulation under high strain. Has one flat side for seating end post.

## HORSECOTE®

Non-Conductive  
Coated Wire

### Horsecote™ Coated High Tensile Fence Wire

Horsecote™ coated high tensile fence wire is a plastic coated wire that is quickly becoming the coated wire of choice by both horse owners and fencing contractors. It is very easy to use, needs little maintenance, is cost-effective, easy to install and versatile. The molecularly bonded premium grade polyethylene plastic is reinforced by a 12.5 gauge high tensile fence wire, which has an ASTM classification for physical barrier fencing, that has a minimum breaking strength of 1650 lbs.

## FENCE STRAINERS

### Galvanized Wire Strainer

This hot-dip galvanized wire strainer has a spring to hold the latch flipper tight against the zinc cog, which makes tightening the wire safer. This is a durable and long-lasting strainer.

**140-020** Sold individually.  
0.63 lbs each.

**140-021** Sold per case of 50 strainers.

### Strainer with Galvanized Strap

This strainer has a galvanized strap with a spring holding the latch flipper tight against the aluminum cog.

**140-044** Sold individually.  
0.39 lbs each.

**140-045** Sold per case of 50 strainers.

### Galvanized Wire Strainer

This strainer has a stainless steel strap with a spring steel latch. The wider aluminum cog holds more wire and can be used with 1" Ponyrail. The square end allows tensioning with a 9/16" wrench.

**140-040** Sold individually.  
0.39 lbs each.

### Strainer

This clever, time-saving design allows fence wire to be attached to the strainer without the use of crimp sleeves or other connectors. Simply insert the wire into the Quik-End and tighten. Use with 12.5 gauge wire.

**140-060** Sold individually.  
0.55 lbs each.

**140-065** Sold per case of 50 strainers.

### Galvanized Wire Strainer

In-line Strainer with Porcelain Insulator. Square Side for 9/16 Wrench 50 per case.

**140-015**

### On-Line Strainer

Made with a solid zinc cog and class 3 galvanized clip, this is our strongest non-splicing strainer. Simply install without cutting the wire and tighten with a half-inch drive ratchet. Also handy for splicing and re-tensioning high-tensile wire. These strainers should not be used with coated wire product.

**140-025**

### On-Line Strainer

Made from die-cast aluminum this on-line strainer is easy to install without cutting the wire.

**140-026**

### On-Line Strainer

All aluminum tensioner that can be used for high tensile steel or polyrope. They are excellent for polyrope, polywire or any of the braided ropes up to 5/16" diameter.
